Set Up a Question to Allow Multiple Answers

Are you looking to set up your question to allow respondents to select *multiple answers*?

The checkbox question type is the best option for this scenario. It will allow your survey respondents to select multiple answers from a list. Learn more about the checkbox question type!

Which Support Channels have you used to contact us (select all that apply)?
- ☑ Email
- ☑ Phone
- ☐ Live Chat
- ☐ Social Media

Check it out in an example survey!
Add a survey with this question to your account!

If you are looking to allow multiple answers per row in a table, use the Checkbox Grid Question Type.

Allow Multiple Open-Text Answers

If you are looking to collect multiple open-ended answers there are several options available to meet your needs:

Textbox List

A Textbox List question is a list of short-answer, open-text fields with labels for each row.

1. What is your favorite movie in the following genres?

Drama	
Comedy	
Foreign	
Western	

Textbox Grid

The Textbox Grid question allows respondents to enter short answers to multiple questions in a table format.

1. How many calories did you consume for each meal of the day this week?				
	Breakfast	Lunch	Dinner	Snacks
Monday				
Tuesday				
Wednesday				
Thursday				
Friday				
Saturday				
Sunday				

Custom Group

The Custom Group question type allows you to group questions of different types together under one parent question.

1. Please provide the following information to help us prepare for your trip:

First Name

Last Name

What service do you need?

○ Flight only

○ Hotel only

○ Flight & Hotel

Departure Date

Return Date
