

Report Themes

Are you taking advantage of the [Style](#) options in your Standard Report to customize the look and feel to match your organization's brand? Wouldn't it be nice to save this work to apply to later shared reports? Good news! You can!

Standard Reports

Save a Standard Report Theme to Your Library

Once you get your report looking just right go to **Report Style > Theme > Your Theme Library** and click the **Save Current Style as a New Theme** option. Give your theme a name and click **Save**. Now your theme is saved for use in future reports!

Applying a Saved Theme to Your Standard Report

Once you have a saved theme you'll likely want to apply this theme to another Standard Report. To do so go to **Report Style > Theme > Your Theme Library** and select the Theme you wish to apply.

All Other Reports

Are you taking advantage of the **Style** tab of your reports to customizing the look and feel of your report share links to match your organization's brand? Wouldn't it be nice to save this work to apply to later shared reports? Check out the **Report Themes** feature available under **Account > Libraries!**

On the **Layout** tab customize the following options:

- **Theme name** - Give your theme a name that is meaningful to you.
- **Body Background** - This option will update the background color of your entire report. This is the color outside your main report.

- **Page Background** - This option will change the overall page background color of your report. We generally recommend this be lighter than your Page Title, Page Text, and Question Title color (unless you're going with a dark background with light text color).
- **Page Text** - This option will change the color of your answer options in the table summary below your charts.
- **Page Width** - Specify a custom width in % or px or use the slider to adjust the page width.
- **Font/Size**: Choose between 8 system fonts and three sizes.

Theme: Beautiful Theme

LAYOUT HEADER CSS HTML [NEED HELP?](#)

Theme name

Body Background

Question Background

Page Text

Page Width: 82 %

Font: Verdana Size: medium

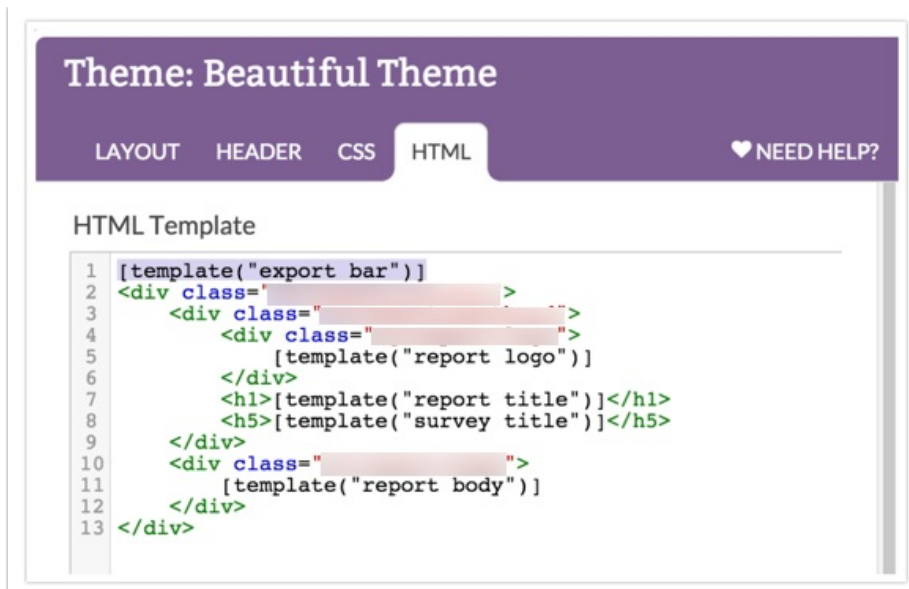

On the **Header** tab customize the following options:

- **Logo** - Click the change link to select an image uploaded to your File Library or use an external image URL. Then adjust its size and alignment (left, center, or right)

- **Report Title** - Display the report title. When selected you'll have the option to change the color and alignment (left, center, or right).
- **Survey Title** - Display the Survey title. When selected you'll have the option to change the color and alignment (left, center, or right).

Finally if you know HTML and CSS you can append custom CSS and/or customize the HTML of the report on the **CSS** and **HTML** tabs. For example, if you wish to remove the options to export to Word, Excel and PDF you can delete this merge code from HTML tab.

Customizing Chart Colors

Chart colors can only be customized within the report itself on the **Charts** tab.

Applying Your Saved Theme to a Report

Once you've finished customizing your report theme you can apply it to a report! Create or edit a Summary Report and click **Customize Report > Style**. Scroll to the bottom of the panel and select your theme from the **Theme** dropdown and click **Save**.

Once your report has saved click **Customize Report > Share** and access your **Distribution link** to see your report theme applied to your shared report!
