

Standard Report: Report on Grid Rows Separately

In Standard Reports the rows of both [Radio Button Grid](#) and [Checkbox Grid](#) questions can be reported on separately as either a pie chart or a bar chart. Here are the steps to set this up:

1. Click the **Insert** button between any two report elements and select **Question Chart** from the dropdown menu.
2. In the next dropdown menu look for your grid question. Instead of selecting the overall question title select the first row of the grid, seen below, and click **Add Question**.

3. Continue adding each row of the grid question. This will display the rows of the table in chart format. Beautiful!

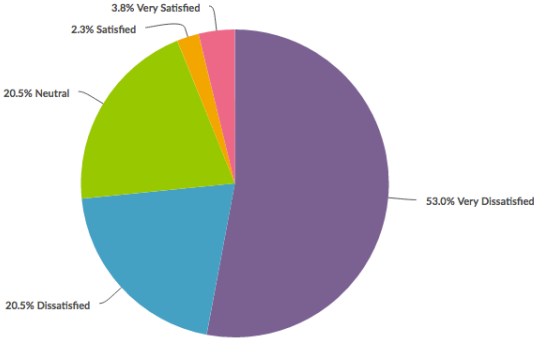

Default Grid Element:

Please rate your satisfaction with the following items:

	Very Dissatisfied	Dissatisfied	Neutral	Satisfied	Very Satisfied	Responses
Flavor Options						
Count	15	16	18	14	12	75
