

# Standard Report Downloads: Excel, Word, PowerPoint, and PDF

Once you are finished customizing your [Standard Report](#) you might want to download the entire report. Standard Reports can be downloaded as a PDF or as an Excel, Word, or PowerPoint document.

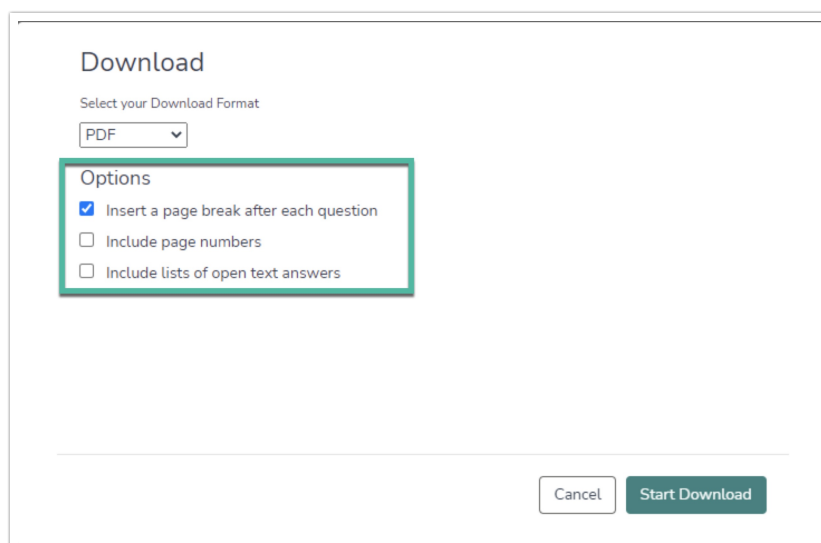

## PDF Download

The PDF download will look most like your report as you see it in Alchemer.

When downloading a PDF version of a Standard Report, you can choose these options:

- Insert a page break after each question
- Include page numbers
- Include lists of open text answers

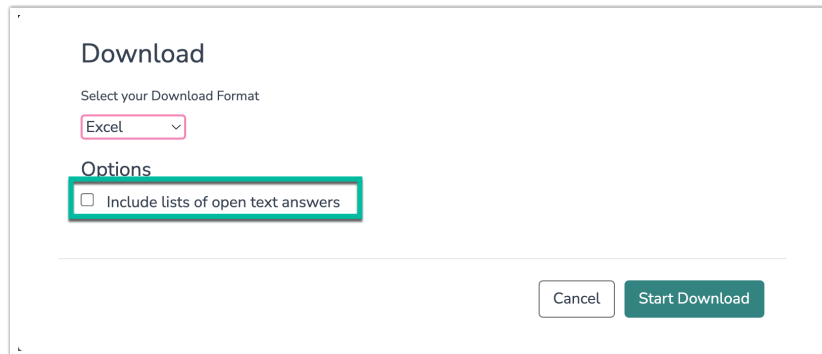

## Excel Download

If you only need the aggregated data, the Excel download option is a good choice. This will download all the summarized statistics with no graphs. This way you can create your own customized charts if you wish!

### Export Standard Report to Excel

1. To create an Excel download of your Standard Report, click the **Download** option in the upper-right corner of your report and select the **Excel** option.

**Download**

Select your Download Format

Excel

Options

Include lists of open text answers

Cancel Start Download

2. If you want to include answers provided via open text questions as lists, select **Include lists of open text answers**.
3. Last, select **Start Download**.
4. When it is finished, click **Download Report**.

Your Excel download will show the aggregated data for each of your questions. See the below incompatible features and elements.

## PowerPoint Export

If you need to integrate your survey data into a PowerPoint presentation, the PowerPoint download will help you accomplish this.

1. To create a PowerPoint download of your Standard Report, click the **Download** menu in the upper-right corner and choose the **PowerPoint** option.

The screenshot shows a 'Download' dialog box with the following elements:

- Title: Download
- Section: Select your Download Format
- Dropdown menu: PowerPoint
- Section: Options
- Checkbox:  Include lists of open text answers (highlighted with a red box)
- Buttons: Cancel and Start Download

2. If you want to include answers provided via open text questions as lists, select **Include lists of open text answers**.
3. Last, select **Start Download**.
4. When the download is finished, click **Download Report**.

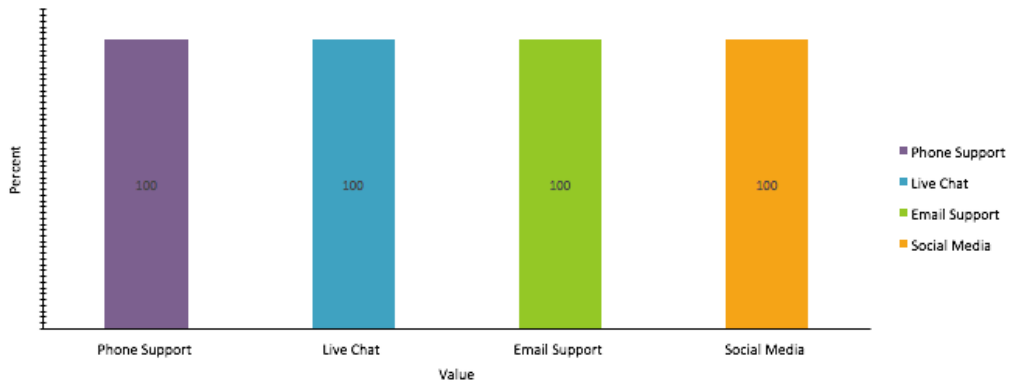

Your PowerPoint download will show the aggregated data for each of your questions along with graphs.

- Each survey question will occupy two PowerPoint slides:
  - One slide will show the chart (ex. pie chart, bar chart, etc.)
  - One slide will show the summary table
- Depending on the amount of answer options in your chart and table, you may have to move or resize items within PowerPoint to achieve your desired look and feel.
