

Alchemer Release Notes: June 28th, 2021

Below is this week's log of fixes and improvements:

Improvements

[Performance] – Account Admins will be shown a validation message prior to deleting a Salesforce integration.

[Performance] – Survey Page Titles added to the question drop-down when mapping fields to a Salesforce Pull or Push Action.

[Performance] – Added new WSDL endpoints for Salesforce Marketing Cloud to expand available regions.

Fixes

[Performance] – iFrame embed code updated to HTTPS.

[Performance] – Salesforce Push Action supports EU date formatting of DD/MM/YYYY.

[Performance] – Salesforce Push Action correctly pushes 0 or 2+ files when a File Upload question is used.

[Performance] – Fixed a pagination issue on projects with more than five pages.

[Upgrade] – A Collaborator license can remove logos from projects.

[Performance] – Fixed line spacing for required questions when viewing projects on a mobile device.

[Performance] – SMS campaigns will not be copied when a survey is copied.
